PROFESSIONAL SUMMARY

Software Developer (2+ years) building production web applications and REST APIs. Stack: **C#, .NET, React, Next.js, TypeScript, Node.js, SQL, MongoDB**. Strong practices: **clean code, design patterns, unit testing, CI/CD**. Bilingual (FR/EN), versatile and adaptable, eager to contribute to ambitious technical projects within demanding teams.

TECHNICAL SKILLS

Backend:	C#, .NET Core, ASP.NET Core, Node.js, Express.js, REST APIs, JWT
Frontend:	React, Next.js, Angular 17+, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material-UI, Redux
Databases:	PostgreSQL, MySQL, MongoDB, Entity Framework Core
DevOps:	Git, GitHub, GitHub Actions, Docker, CI/CD, Agile/Scrum
Testing:	Jest, unit tests, code reviews
Practices:	Clean code, OOP, design patterns, documentation, UI/UX
Languages:	French (DELF B2), English (professional), Arabic (native)

PROFESSIONAL EXPERIENCE

Full-Stack Developer <i>Bisha Charm – ERP Platform</i>	Oct 2024 – Present Casablanca, Morocco
Multi-activity ERP platform (React, TypeScript, Tailwind, C#, ASP.NET Core 8): full-stack design centralizing operations across 6 business divisions (cosmetics, retail, import/export, services, training, construction) through modern workflows. n-tier architecture, Data & Security: built secure REST APIs (JWT, RBAC) with EF Core and PostgreSQL, data modeling, SQL optimization, improved traceability, and reduced manual entry. DevOps & Quality (Git, CI/CD GitHub Actions): automated pipelines, design patterns, unit tests, code reviews, and technical documentation.	
Frontend Developer Intern <i>FCPO Digital Agency</i>	Mar 2024 – Sep 2024 Oujda, Morocco / Remote
eCommerce Dashboard (React.js, Redux, Material-UI, Tailwind, Axios): modular architecture, responsive design, multilingual (i18next) and accessible (UI/UX) with React-Router and React-Spring. Features & Data Visualization: full CRUD (products, categories, subcategories, orders), form validation, API integration, and KPI/performance dashboards via interactive charts. Quality & Agile Scrum: unit tests (Jest), reusable components, clean/documented code, code reviews, and participation in ceremonies (sprints, dailies, retrospectives).	
Full-Stack Developer Intern <i>Regional Council of Oriental</i>	Jun 2022 – Sep 2022 Oujda, Morocco
Government Digitalization: developed a web application transforming paper-based file management (associations/cooperatives) into reliable and faster digital workflows. Full-Stack Development (React, Node.js, Express.js, MySQL): designed REST APIs with role-based access control (RBAC), intuitive interfaces, and admin dashboards for file tracking. Technical Quality & Soft Skills: adherence to best practices (testing, documentation, clean code), adaptability, problem-solving, and active communication with stakeholders.	

EDUCATION

Engineering Degree (Bac+5), Computer Science <i>SUPMTI Oujda, Morocco</i>	2019 – 2024
