Profile

Highly motivated and results-driven Full-Stack JavaScript Developer with 2+ years of hands-on experience in building, optimizing, and deploying modern web applications. Proficient in the T3 Stack ecosystem, specializing in Next.js, React.js, Tailwind CSS, and Node.js. Proven ability to deliver high-performance, responsive, and user-centric digital solutions.

Technical Skills

- **Langages:** HTML5, CSS3, JavaScript, TypeScript, SQL, No SQL.
- **Frameworks:** React.js, Next.js, Node.js, Tailwind CSS, Bootstrap.
- **Database:** MySQL, MongoDB.
- **Project management :** Agile methodologies (Scrum, Kanban), Trello.
- **Tools :** Git, Jira, Postman.

Professional experiences

Technical Problem-Solving & Operations – MAMDA/MCMA Assurance | Oujda, Morocco | Sep 2025 – Present

- **System Maintenance:** Managed and maintained the stability and availability of internal IT systems and network infrastructure to support uninterrupted insurance operations.
- **Rapid Troubleshooting:** Provided **first and second-level technical support**, resolving critical hardware, software, and network issues quickly to minimize operational downtime.
- **Efficiency Improvement:** Streamlined support processes by **documenting recurring issues and solutions**, reducing average resolution time for common administrative challenges.

Freelance Web Developer | Dec 2024 – Present

Full-Stack Development: Designed, developed, and launched **8+ custom, performance-focused websites** utilizing the modern **Next.js** framework and **React** for dynamic front-end functionality.

- **Front-End Expertise:** Implemented responsive, accessible, and high-fidelity UIs using advanced **HTML/CSS and Tailwind CSS**, ensuring pixel-perfect display across desktop and mobile platforms.
- **Performance Focus:** Optimized site performance and accessibility standards across all projects, resulting in faster load times and improved user experience metrics.
- **Code Quality:** Applied rigorous technical standards and best practices in development, resulting in maintainable, scalable, and high-quality codebases.
- **Client Management:** Collaborated directly with diverse clients to gather requirements, define project scopes, and deliver custom digital solutions that met specific business needs.
- **User-Centric Design:** Adopted a **user-centric design approach** to translate client vision into functional, intuitive web experiences that enhance engagement and conversion.
- **Technical Consulting:** Provided ongoing technical consultation and support to clients, advising on optimal technology choices and innovative solutions for future growth.
- **Technology Leadership:** Maintained constant technical vigilance (*veille technologique*) to integrate the latest effective tools and techniques into the development workflow, ensuring innovative and efficient project delivery.

End-of-studies internship - Full-Stack Web Developer – FCP0 | Oujda, Morocco | Mar 2024 – Sep 2024

- **Front-End Development:** Built a comprehensive, **interactive e-commerce management dashboard** using **React.js** to handle inventory, order tracking, and customer management, **streamlining operations** for the entire online store.
- **Performance Optimization:** Streamlined the user interface with **Tailwind CSS & Bootstrap**, cutting page load times by **40%** and reducing mobile bounce rates by **25%** through responsive design and optimized styling.
- **Data Visualization:** Designed advanced visualizations using libraries like **ECharts**, enabling stakeholders to analyze real-time sales and inventory data, which drove a **20% improvement in stock turnover**.
- **API Integration & Security:** Secured crucial **API communications** via **Axios** integration with **JWT authentication**, ensuring **100% data integrity** and safe data transfer.
- **Agile Collaboration:** Worked within a **5-member Agile team**, actively participating in daily stand-ups, sprint planning, and retrospectives using **Trello and GitHub** for version control and project management.

Internship - Web Developer, Oriental Regional Council (CRO) | Oujda, Morocco | Jun 2022 – Sep 2022

- **Full-Stack Development:** Developed a critical web application to automate the management of association and cooperative files using a **React.js** frontend and **Node.js** backend.
- **Process Automation:** Digitized the entire file uploading and organization process, which **significantly improved administrative efficiency** and **reduced the requirement for time-consuming in-person visits** by stakeholders.
- **System Features & Security:** Engineered and implemented key application features, including advanced **data filtering**, **authorization mechanisms**, and secure user interactions, to ensure controlled access to sensitive organizational data.
- **Team Collaboration:** Worked in close collaboration with a colleague specializing in **backend development**, ensuring smooth and efficient **integration (API communication)** between the front-end and backend systems.
- **User Experience Focus:** Focused on delivering a seamless and intuitive user experience by utilizing **Bootstrap** for rapid, responsive interface development and prioritizing ease-of-use for administrative staff.

Education

Diploma in Computer Systems Engineering, SupMTI | Oujda, Morocco |

Oct 2019 – Sep 2024

Certifications & Languages

- **Indeed:** Become a Software Developer
- **IBM:** Data Science
- **Openclassrooms:** PHP et MySQL
- **Google:** Digital Marketing
- **EF SET Certificate:** EF Standard **English** Test (77/100) - Reading and Listening
- **DELFB2:** Diploma of **French** Language Studies B2 (67.50/100) - Reading, Listening, Writing, and Speaking
- **Arabic:** Native / Mother Tongue
